

Hanson, Misery

This time, I won't take it back
something's coming to you
this time, I'm gonna breathe a breath
walking on down the road

I can never promise that you'll never be lonely
but as long as we're together it can always only be

Misery (lo doe doe doe doe)

Last night I got off the fence
cause I won't be the fool
This side of the grass is greener than
the garden that I used to grow
Walkin' on down the road

I can never promise that you'll never be lonely
but as long as we're together it can always only be

Misery (lo doe doe doe doe)

Misery
Misery

I can never promise that you'll never be lonely
but as long as we're together it can always only be

Misery (lo doe doe doe doe)

Misery
Misery

This time, I won't take you back
cause I won't be the fool
