Hanson, Misery

This time, I won't take it back something's coming to you this time, I'm gonna breathe a breath walking on down the road

I can never promise that you'll never be lonely but as long as we're together it can always only be

Misery (lo doe doe doe)

Last night I got off the fence cause I won't be the fool This side of the grass is greener than the garden that I used to grow Walkin' on down the road

I can never promise that you'll never be lonely but as long as we're together it can always only be

Misery (lo doe doe doe) Misery Misery

I can never promise that you'll never be lonely but as long as we're together it can always only be

Misery (lo doe doe doe) Misery Misery

This time, I won't take you back cause I won't be the fool
