

Hanson, On The Rocks

Early in the morning
I am reminded how few things change
We've been through it
Every time it's the same old phrase
Never should have said it
But you should know what I meant to say

So, we're back on the rocks
Been here before
Will it ever stop?
I've tried to change
We're gonna fight
So we can make it right

Living in the moment
We fight the fog of the everyday
Monday morning in 20/20
It seems so clear
Even though I see it
I give into weakness and wind up here

So, we're back on the rocks
Been here before
Will it ever stop?
I've tried to change
We're gonna fight
So we can make it right

I'm not giving up
I'm not giving up

If I give into reason
Then I'd stop believing and
Just move one
I can't move on

So, we're back on the rocks
Been here before
Will it ever stop?
I've tried to change
We're gonna fight
So we can make it right

I like it on the rocks
I'll take it on the rocks
So we can make it right
So we can make it right, ooo ooo
So we can make it right
So we can make it right
