

Hanson, Surely As The Sun

As surely as the sun rises each day
So my love will never change
And though the years may come and go
My love will only grow and grow

Sometimes I wonder what you see in me
Cause I'm only a man flawed in so many ways you see

I want to share every moment of the day with you
And I want to share every sunset and every sunrise
And every moonlit night

As surely as the sun rises each day
So my love will never change
And though the years may come and go
My love will only grow and grow

Sometimes I wonder what you see in me
Cause I'm only a man flawed in so many ways you see

As surely as the sun rises each day
So my love will never change
And though the years may come and go
My love will only grow and grow
