

Hanson, Where Did It Start

Where did it start? Why?
What does it matter?
We're far beyond
The place that we started
No time of mind
To chase after fault
We know that time is so
Much of what's lost
To a child born
With something so wrong in his blood
A sickness that pumps through his veins
Through his heart
It's shameful if we only start when
We know that he sleeps in
A box in the third drawer

Where did it start?

Dare we try and wade
This muddy water
Fill this ocean of need
Bottle by bottle
Hallowed we stand
And watch this parade
Saturday morning
Down to the graves

Oh, somebody save us
Somebody stand up
It's carried away
Something must change
Somebody save us
How many more does it take?

Somebody save us
Somebody stand up
It's carried away
Something must change
Somebody save us
How many more will it take?

Oh...
Where did it start?
When does it stop?

I don't wanna get this wrong
Don't you see what's going on
I don't wanna turn you away
Until you know what's at stake

Oh, I don't wanna get this wrong
Don't you see what's going on
I don't wanna turn you away
Until you know what's at stake

WAKE UP!

Oh, oh...

WAKE UP!

Where did it start? Why?
What does it matter?
We're far beyond

The place that we started
No time of mind
To chase after fault
We know that time is so
Much of what's lost
Yeah, we try and wade
This muddy water
Fill this ocean of need
Bottle by bottle
Hallowed we stand
And watch this parade
Saturday morning
Down to the graves

Oh...
Where did it start?
When does it stop?
Where did it start?
When does it stop?
