

# Harbourlight, Ever Wondered

Have you ever really wondered why  
It's been two thousand years  
And still we're talking of one man  
Still we're seeing His works

And have you ever wondered why  
When they try to defile His name  
They come back to find  
The stone rolled away  
And look into an empty grave

'Cause  
Jesus lives and Jesus' name endures  
Jesus lives and Jesus' name endures

We think we've found a key in science  
We're gonna solve the human race  
And build a god we can equate  
With sums on a paper page

Well try calculate eternal life  
Try calculate the cross  
Where does science alone leave you  
When the world is lost?  
Where does science alone leave you  
When the world is lost?

God let Your glory fall for all to see  
Let Your Kingdom come  
Let Your will be done  
As we seek Your face  
Consume us for Your name  
Let Your Kingdom come  
Let Your will be done

Jesus lives and Jesus' name endures
