

Harbourlight, So Beautiful

You're like the river like the sun
You're the one I love
You're enslaving me free
You're the breaking healing me
And it's beautiful
Through the darkness, through the night
You're the one I find, never leaves my side
You're never letting go
Through it all, through it all

So beautiful is the One I stand before
Life is just to fall at Your feet facedown, overawed

How I want you to hear me
Standing here singing
To say how I'm feeling
But it would be empty
Without a life
So hear my life saying

Standing in this place
Staring at Your face
I never want to look away
