

Hard-Fi, Better do better

Your back sitting on my door step
Oh yeah like nothing happened
Telling me that you're free and oh, can you see me again?
Yeah right, so you've been kicked out
Do you think I'm that stupid?
You say you're free but didn't he just get tired of you kid?
I could not eat for days
I cried so much my face
Has never been the same and now you're back here with your lies
I hope you realise
You think I'm going to take you back
You better do better than that
I'll tell you how it's going to be
Don't you never ever come near me
Let me tell you how I've been
I've been hiding from my friends
Hiding from the world
Hiding from myself
So you think you'll come round here
Start singing in my ear
Girl you damaged me, I don't forgive so easily
You better do better than that
Your face, makes me want to be sick
Ah yeah it's a physical reaction
You better leave cos you see I can't
Won't be blamed for my actions
Don't know how I ever loved you
So dumb why did I ever trust you?
But you and he laughed at me, oh yeah
While you lay together
I could not eat for days
I cried so much my face
Has never been the same and now you're back here with your lies
I hope you realise
You think I'm going to take you back
You better do better than that
I'll tell you how it's going to be
Don't you never ever come near me
Let me tell you how I've been
I've been hiding from my friends
Hiding from the world
Hiding from myself
So you think you'll come round here
Start singing in my ear
Girl you damaged me, I don't forgive so easily
You better do better than that
I gave you everything I had girl
But you had to try and take some more
You went behind my back girl
Cheated on me, I was the last to know
Did everything we have mean nothing to you?
Well I was such a fool
Now you come crawling back girl
Well let me tell you, I am through with you
I'm back up off the floor
And I won't get hurt no more
I've been waiting for this day when you'll be back here with your lies
I hope you realise
You think I'm going to take you back
You better do better than that
I'll tell you how it's going to be
Don't you never ever come near me
Let me tell you how I've been
I've been hiding from my friends

Hiding from the world
Hiding from myself
So you think you'll come round here
Start singing in my ear
Girl you damaged me, I don't forgive so easily
You better do better than that
