

# Hard-Fi, Living For The Weekend

Oh, I've been working a week, I'm tired  
Yeah, I've been working a week and I'm  
Just living for the weekend

Hey hey  
Got some money I just got paid  
Got some money and I can't wait  
At six o'clock I'm out of here

Out there tonight  
Is the night of my last got my name on  
Run down my street adidas on my feet  
I'm on fire

Working all the time  
Work is such a bind  
Got some money to spend  
Living for the weekend  
When it gets too much  
I live for the rush  
Got some money to spend  
Living for the weekend

Oh man!  
Yeah I've been working a week, I'm shot  
Yeah I've been working a week for what?  
Just living for the weekend  
Ah shit!  
So my clothes are all counterfeit  
So my name isn't on the list  
'No you can't come in, so go home boys!'

Slip round the back look at that  
There's a crack toilet window  
Drop to the floor covers us through the door  
I'm on fire

Working all the time  
Work is such a bind  
Got some money to spend  
Living for the weekend  
When it gets too much  
I live for the rush  
Got some money to spend  
Living for the weekend

Can you feel it?  
Feel the pressure... rising  
Pushing down on me, oh lord!

Pressure, pressure, pressure pressure pressure  
Feel the pressure  
Pressure, pressure, pressure pressure pressure

Living for the weekend [x8]

Going out tonight, going out tonight  
Baby you and I are going out tonight  
[repeat x4]
