

# Hard-Fi, Move on now

Baby baby, I think it's time we move on now  
Baby baby, I think it's time we move on now  
Looking out my bedroom window  
See the planes take off from Heathrow  
One by one they come and go  
On and on, on and on  
I think about the places I'd go  
Think about this place I call home  
All the shots, and all the con  
All around, all around  
Red light blinking in the twilight  
Tracing out a path right out of here and now  
Red light blinking in the twilight  
Tracing out a path right out of here and now  
Baby baby, I think it's time we move on now  
Baby baby, I think it's time we move on now  
Don't you think it's quiet around here?  
Doesn't seem so much to do here?  
Think back to this time last year  
Good times, good times, good times  
Don't you think we've stayed far too long?  
Don't you think the colour has gone?  
Get on a plane it can't be wrong  
Moving on, moving on  
Red light blinking in the twilight  
Tracing out a path right out of here and now  
Red light blinking in the twilight  
Tracing out a path right out of here and now  
Baby baby, I think it's time we move on now  
Baby baby, I think it's time we move on now  
Baby baby, I think it's time we move on now  
Baby baby, I think it's time we move on now  
Dance floors are empty, clubs have all closed down  
Nothing's going on round here, it's time we left town  
Got a feeling my love we've got to get out  
Before it brings us down... down... down...
