

# Hardcore Superstar, Breakout

Loosen up, you're among your friends  
Just be cool and let your mind be free  
I say - hey you female  
Wipe those tears right off your face  
I'm here to give you the truth

A message from the stars  
My head is from Mars  
Flying like a rocket  
One minute from the stars  
My passion's from Venus  
Women who have seen us  
That's how we swing it again

Break out baby, don't you wanna dance  
I wanna lose it today  
Breakout honey, make way. take a chance  
My passion is here to stay

You better stand up, why don't you take a chance  
I wanna feel you again  
I say - hello little one, let's go out and spend some time  
Affection's all around
