

# Hardcore Superstar, Punk Rock Song

I made up my mind today  
Ain't gonna live like they like everyday  
So sick and tired of this  
So fucking fed up with this society  
Welcome to nowhere fast  
Woke up and laughed death in the face again  
So sick and tired of this  
So fucking fed up with this society

## CHORUS

I don't like the things you do man  
I don't agree with the things you say  
It's in our mind to live and breathe in this world you know alright  
I've been around  
Sad to say that all of us believe in these hypocrites you know  
I've been around

Blood sparkled in his eyes  
With the devil himself on his side  
No one here gets out alive  
I'm so fed up with this society

I made up my mind today  
Ain't gonna live like they like everyday  
So sick and tired of this  
So fucking fed up with this society

## CHORUS
