

# Hardcore Superstar, Someone Special

You came to me  
like a little mislead child  
You're the only one, my spirit's gold  
Don't make our time together  
a moment of joy  
Cause love will guide us through

Maybe you want it too, maybe you  
Cause I don't wanna be the one  
that send you away

Someday you gonna be  
someone special  
All the places we've been  
And all the faces we've seen (x2)

I know there were times of pain  
And there were times  
I didn't understand

And I know there were times  
I wouldn't hold your hand  
But baby, now I'm here for you

Maybe you want it too, maybe you  
Cause I don't wanna be the one  
that send you away

Someday you gonna be  
someone special  
All the places we've been  
And all the faces we've seen (x2)
