

# Harem Scarem, New Religion

Apologize for stupid old mistakes  
Your only vice disappears without a trace

Your mystified  
You can't relate  
Your on your knees to follow the new faith

I'm starting my own religion  
Demi Gods  
They'll be none  
After all demons fall we'll be done

Sink your teeth into the golden prey  
You won't believe the souls we saved today

You won the prize  
It's no debate  
Your on your knees to follow the new faith
