

# Harlan Howard, Just For The Heck Of It

I think I'll take a little trip just for the heck of it  
That's what I've always longed to do  
I will give this dreary life to slip just for the heck of it  
See the places do the things I've always wanted to  
Woman you held me down for so long  
Whatever you held me with is gone gone gone gone gone

I think I'll stroll around the world just for the heck of it  
Someday I'll remember how to live  
I just might find another girl just for the heck of it  
But this time I won't be expecting more than she can give  
[ guitar ]  
Woman you held me down...  
I think I'll stroll around the world...
