

# Harling Keith, I Love What I See

No two ways about this  
I'd be a fool to doubt this feelin  
I've got about her  
I see drivin downtown  
When she rolls the window down  
Yeah, I'm downright sure

Chorus:

I love what I see  
Every time I see her lookin at me  
Over here over there  
Any ol where we might happen to meet  
I can't account for the how's or the why's  
All I know's I can believe my eyes  
And I love what I see  
Every time I see her lookin at me  
Just last night at the football game  
When she walked by she said my name  
Oh imagine that  
Don't know that I'd call it flirtin  
That us'ly implies uncertainty  
And I can say for a fact  
Repeat Chorus:
