

Harmful, Charmed

Well, you're sorry for what you've done I kept still while you strung me up... I've got to know what you
Can a taste of love be so wrong? you may find your love is gone... I've got to know how you've been
...and you told me why with your charmed eyes? can't get you out of my head
When it comes around, with an awful sound? I'll be on my way
Try to bruise what I've been before? there's nothing left to adore... show me the place where you
I can't bare your complaints? I lie down and go insane... you've got to know how I'd been before
...and you told me why with your charmed eyes? can't get you out of my head
When it comes around, with an awful sound? I'll be on my way
