

Harmful, Dumb

We're sold, we're done now Every moment feels the same The first time I saw you
You were chasing down again I'm not the one to provide, I'm not the homicide
You've got all you wanted Everything to hide
Now you know how to be dumb? everything will come undone I don't mind if I'll stay here out of tim
Arms open, unspoken Every moment feels the same Capsize the tall tale but you will always fail
Stand down, you will fall apart? that's when the trouble starts From the top I counted you out
Life can be so hard
Now you know how to be dumb? everything will come undone I don't mind if I'll stay here out of tim
