

# Hatesphere, Deeper And Deeper

Come with me my friend  
I'll take you to a place where heads are rolling  
Can you hear the bells?  
The ring for you my friend  
Sounding louder forevermore  
You cover your ears  
Cause this is what I tell:  
Prepare to swim with me  
We're in a world of shit  
Sinking deeper and deeper  
Now roll your head my friend  
Forget about the Gods above and demons below  
Fooling with your mind - with your mind  
Drunken angels fool around and devils blind your eyes..  
Prepare to sink with me  
Whirlpool of shit  
Going deeper and deeper  
You cross your arms my friend  
You stop to swim along, and shout:  
no way!  
I pity you for all your hope  
Ignorance has left you deaf and blind  
wake up  
have a taste of this:  
There is nowhere to run now  
The shit will trace you down  
Let's go deeper and deeper.
