

# Hatesphere, Disbeliever

[Solo: PLH]

[Solo: Z]

Covered in skin

Covered in sin

It's all about reaching out

And then begin, then begin

To feel the shadows coming in

It knows how to feed me

And beat me

It knows how, how to treat me

And beat me

Kept in a cage

Enrage

Looking through the bars

The stars glitter in the night

Glitters so bright

It knows how to feed me

And beat me

It knows how, how to treat me

And beat me

I broke the bars but saw no stars

I peeled my skin but felt no sin

I'm reaching in, but can't come out

Only doubt...

I wonder where

I wonder why

I wonder how to reach the sky

It's just a lie
