## Hatesphere, Marked By Darkness

Hear the screams from the underworld
And feel the evil come creeping on you
All these lovely creatures gathered here tonight
Legions of death lead by me
I, the master in command
The sign of destruction
Into battle with a force so strong
I, am marked by darkness
I have no mercy

Oh yes, blood and guts will be spilled

This method of destruction crushing you and your world

Legions of death lead by me I, the master in command

Let in rain with blood

Let it rain in blood upon my name

Blood and guts spilled now More blood soaks the ground

See the sky turn black

As the stench of corpses fills the air Let it rain with blood upon my name My wrath will take you, I have no regrets My blackened heart will see you all dead

Legions of death lead by me I, the master in command Let in rain with blood

Let it rain in blood upon my name
