

Haujobb, Penetration (Amalgamous Remix)

Blinking and sparkeling ??????
whipped out after it's still there, thinking they were the universe.
They swallowed the world.
They swallowed the world around me.
Catered at will, centralised
Cut into peices.
They ????? us
they turned delinquent,
spread themselves like sunlight.
Thinking they were the universe.

They swallowed the world.
They swallowed the world around me.
They swallowed the world.
They swallowed the world around me.
They swallowed the world.
They swallowed the world around me.
They swallowed the world.
They swallowed the world around me.
