

Hawkwind, Social Alliance

A social alliance, are you in distress?
Just contact me and I'll do my best
She said "I'm a person, so don't abuse me
You know I am a Doctor of the third degree"
A Doctor of the third

We're part of a structure
That needs no consent
You think you're the same
When we're all different
Jean lives for fashion
And I live to fight
Before life was easy
Now we're creatures of the night

We're creatures of the night
We're creatures of the night
We're creatures of the night
Creatures of the night

A social alliance, are you in distress?
Just contact me and I'll do my best
She said "I'm a person, so don't abuse me
You know I am a Doctor of the third degree";

Don't miss the sensation
It's never too late
If you think you're ready
There's no need to wait
Can your mind take it?
Do you really care?

Do you really care?

(Thank You Goodnight!)
