

# Hawthorne Heights, Until Her Heart Stops

I remember that time  
All through the night  
Trying not to close my eyes  
Again

Pretending that all he got was  
In a stolen car  
Trying not to pull over  
And cry

My eyes so red  
I just want to die  
Kill me with your words  
Kill me one last time

Cut out my heart  
And throw it on the floor  
For everyone to see

Remember you said  
"Kiss me sweetheart  
before you go again."

Remember you said  
"Kiss me sweetheart  
before you go again."

Don't say  
It's over  
This time

Don't say  
It's over  
This time

She's waiting on the inside  
For me to call again  
Waiting for her  
Just to say goodbye  
One last time  
Waiting on the inside

I'm supposed to say  
Anything at all  
To make you want me back

If I had three wishes  
I wish them all on you  
I wish you away  
From meeeee

Supposed to say  
anything at all

She's waiting on the inside  
For me to call again  
Waiting for her  
Just to say goodbye
