

Hayley Williams , My Friend

little Wrinkle
by your eye
I never noticed till right now
little vicious tiger stripes
if you get close-up to my thighs

and when you're walkin' whit a limp
I can remember the wolves at your heels
when my shadow barges in
you never question why she is here

my friend
when the blood has dried
my friend
instant alibi
you've seen me from every side
still down for the ride
my friend
you know why

nor a secret I can't keep
all of your good and your evil
baby you can leave it whit me
if it's wrong ot its right
I am besides you,
famine or fire

my friend
when the blood has dried
my friend
instant alibi
you've seen me from every side
still down for the ride
my friend

who could take your place
who could take mine
none could take your place
none could take mine

my friend
when the blood has dried
my friend
instant alibi
you've seen me from every side
still down for the ride
my friend
