

Hazen Street, Sorry

Im so sorry
ive been impossible I know
So used to being on my own
Living so wreckless
tell me what you want me to do
I know you want the best for me and you
And I hope you understand
That im trying to cope
I want to be something
Give me some more time and you'll know
Give me some more time and I'll show you that
I wont let you down
I wont let you down
No more oh no
I wont let you down
I wont let you down
I wont let you down
No more oh no
i wont let you down
you give me something to live for
Something to die for
Something to hope for
Something to strive for
Same old story
I'm irresponsible I know
Don't want to end up on my own
Feeling so hepless
Tell me what you want me to do
I only want the best for me and you
Give me hope
Understand that i need your help
If i'm going to be something
Just a little time and you'll know
Just a little time
I wont let you down
I wont let you down
no more oh no
I wont let you down
I wont let you down
I wont let you down
No more oh no
I wont let you down
you give me something to live for
Something to die for
Something to hope for
Something to strive for
Im so sorry
ive been impossible I know
So used to being on my own
Just a little time and you'll know
Just a little time
I wont let you down
I wont let you down
no more oh no
I wont let you down
I wont let you down
I wont let you down
No more oh no
I wont let you down
you give me something to live for
Something to die for
Something to live for
Something to die for
Something to hope for

Something to strive for
