

Head East, Get Up And Enjoy Yourself

Well you say you're out for a good time
And you won't be happy with nothin' else
Well tonight's the night for a party
But you know we can't do it for ourselves

Only thing that I'm thinkin' is
It'd be better if you give us some help
So don't just sit there and fight it
Get up, get up and enjoy yourself

Get up, get up, get up
Get up and enjoy yourself
Get up, get up, get up
Get up and enjoy yourself

There you are, bottle in hand
With some good gold in your pocket
You came prepared and the time is right
So get up and let's see if you've got it

Chorus

I don't want you sittin' round, wonderin' what's goin' on
Cause I'm up here to entertain and that's the only game I play
So get yourself into the song and help yourself before we're gone
There's no time like now to get it up, yeah

There's no time like now to get it up, so...

Chorus
(Repeats numerous times and fades)
