

# Head East, Gettin' Lucky

Gettin' lucky is the name of the game  
What you call it, it all means the same  
Put on your good looks and your dancing shoes  
Go downtown and try to shake those blues  
But you know, another night  
Another number, gettin' lucky

Tryin' the hot spots with the bright funky lights  
Look for the love and stay out of the fights  
Talk to the people but you know that it's true  
Even if they like you, the joke's on you  
Cause you know, another night  
Another number, gettin' lucky

Livin' in a dreamy world that's full of tinsel and glitter  
When the morning comes, why are you always so bitter  
You know what you're gonna find and you know I'm right  
You'll come home with a number from another night (aah ooh)

Livin' in a dreamy world, full of tinsel and glitter  
When the morning comes, why are you always so bitter  
You know what you're gonna find and you know I'm right  
You'll come home with a number from another night (aah ooh yeah)

Givin' it up, would be the easy way out  
Only thing you'll do is sit and pout  
You've got to fight it, hold your head up high  
Even if it never works, you know you try

But you know, another night  
Another number, gettin' lucky  
But you know, another night  
Another number, gettin' lucky  
Gettin' lucky yeah  
What's your number (I don't know)  
Are you a winner  
Oh Lord, I'm a winner  
I keep on tryin, tryin, tryin' yeah ohh  
I got to get that number  
Ooh gettin' lucky yeah  
I just need some  
Ooh gettin' lucky  
Ooh gettin' lucky  
Ooh gettin' lucky  
That's the name of the game  
Ooh gettin' lucky  
I keep playin' now  
Yeahaaa  
Ooh gettin' lucky  
Ooh gettin' lucky  
Ooh gettin' lucky  
Ooh gettin' lucky
