

# Head East, This Womans In Love

Finally found somebody  
Now look around you  
You can find somebody too  
Never knew exactly  
Who it was I was looking for  
Till I found you  
And I can tell by the way she walks by  
This woman is on love  
Well I can see it when I look in her eyes  
This woman is in love  
You can feel her heart beat  
If she's really in love  
Don't you try to hide it if you feel it  
Let your love come shining through  
Once you've got the feeling  
It can only bring good feeling to you  
And I can tell by the way she walks by  
This woman is in love  
Well I can see it when I look in her eyes  
This woman is in love  
Oh, the Lord had mercy  
If she's really in love  
Well I can tell by the way she walks by  
This woman is in love  
Well I can see it when I look in her eyes  
This woman is in love  
You can feel her heart beat  
If she's really in love  
You can feel her heart beat  
If she's really in love  
Oh, the Lord had mercy  
If she's really in love
