

Headhunter, Boozer

Another senseless wasted day
The hangover doesn't seem to go away
Flashing lights kick back
Your mind seems to lose control
To the best of your recollection
The trail to resist was in vain
Your confliction you could make it
All gone, alcohol feeds your brain
Bottoms up, bottoms up
Your daily wake up turn
Bottoms up, bottoms up
You will never learn
Declare yourself for addiction
The first step of your way out
Stop to defend your bad habit
Life is too short, to stay proud
Bottoms up, bottoms up
Your daily wake up turn
Bottoms up, bottoms up
You will never learn

Boozer

Did you get anywhere?

Delusion

Face the truth and you will see

Your life is pain and misery

Boozer

Did you get anywhere?

Delusion

Face the truth and you will see

Your life is pain and misery

Don't expect help

Don't give up,

Just resist

Be of good cheer

Clench your fist

Fight your addiction with deprivation

Only solution in an alcoholic nation

Boozer

Did you get anywhere?

Delusion

Face the truth and you will see

Your life is pain and misery

Boozer

Did you get anywhere?

Delusion

Face the truth and you will see

Your life is pain and misery
