Headplate, Retina

I see myself again
I've done everything wrong to you
Regret all the things I've said
But in the end I spoke the truth

So many stupid acts I've played
So many times I've seen us fade
To many sad thoughts in my head
To many hard words from my mouth

See into my sadness - Try to be like me
See into my blindness - Try to think like me
Everything I've done, everything I've said
Everything I've lived for, echoes in my head

That's nothing you want to see
It's all just crap that comes with me
I say I need some space
But it all ends when I see your face

So many stupid acts I've played
So many times I've seen us fade
To many sad thoughts in my head
To many hard words from my mouth

See into my sadness - Try to be like me
See into my blindness - Try to think like me
Everything I've done, everything I've said
Everything I've lived for, echoes in my head

See into me (x4)

So many stupid acts I've played
So many times I've seen us fade
To many sad thoughts in my head
To many hard words from my mouth

See into me (x3)
See

See into my sadness - Try to be like me
See into my blindness - Try to think like me
Everything I've done, everything I've said
Everything I've lived for, echoes in my head

See into me (x3)
See
