

Headstrong feat Tiff Lacey, The Truth

The Truth

If the truth be told

I miss you and if I'd known

I would never have let you go

Now my dreams are growing old

Just as I supposed

If the truth be told

All our yesterdays have flown

Like birds from winter shores

All the memories we've known

Are fragments and nothing more

Our Summer years have passed us by

Floating on an endless stream

Made from the tears we could not cry

Wrapped close in our inner dreams

Chorus: If the truth be told

All our vanities have gone

Wasted so much time with them

Pride the victor all along

Building walls between two friends

It was too high to pull it down

It was too high to climb so far

Now we laugh just like the clown

Who reminds us what a fool we are

Chorus: If the truth be told

I would never have let you down

If the truth be told
