HeadUp, Get Back

1.
I'd rather die than keep my mouth shut you'll see madness if you want step back, get back, any words stay away from my zone be careful, don't cross that border I'll see a fanatic soldier you don't know how much you're wrong never try to destroy my world

ch. one step back, next step back, turn around and go just get back,now get back to where you once belonged

2.
face down, feel the blast
It's not the first time, not the last
no guarantee for security
You should know my philosophy
someone have to open your eyes
I'm not gentle, I'm not nice
venom starts flowing in my veins
see who's master of the game
this time i think you have to go
stay away from me
this time i think you have to go
its time for therapy

Let them hear your scream
Get Back to Where You Once Belonged
get back to the place you came from
