

# Heath Hunter, Master And Servant

Chorus:

Never gonna play the game of master and servant  
Ever wanna see the happy light in your eyes  
Never gonna play the game of master and servant  
Never say good-bye  
Never gonna play the game of master and servant  
Never wanna see this evil light in your eyes  
Never gonna play the game of master and servant  
Never say good-bye  
Never say hello and mean good-bye (2)

I see the people running  
Trying to get you under  
I see the people searching  
Power and pain  
On the evil learning  
There's more then laying thunder  
Tell me do you feel the same  
I say whey ho whey ho  
So please call my number  
I say whey ho whey ho  
Can't you hear when I cry  
I say the young life meaning thunder  
There's so much love to find

Chorus

Will you ever trust me  
And forever love me  
Will you celebrate our Heaven on Earth  
Will you never use me  
Be an angel to me  
Or are you painting only castles in the sand  
I say whey ho whey ho  
So please call my number  
I say whey ho whey ho  
Can't you hear when I cry  
I say the young life meaning thunder  
There's so much love to find

Chorus
