

# Heather Miller, Angel

Oh, it's the wind that moves through the trees  
Oh, it's the peace I feel on my knees  
Oh, it's the hand that reaches me  
Right when I need it, You send me an angel

Chorus:

You send an angel

I'm never alone I know

You send an angel

So don't ever let me go

Oh, it's the tide that soothes my soul

Oh, when the waves have lost control

Oh, it's the light that leads me home

Right when I need You, to send me an angel

(Chorus)

Although my eyes could see what's there

I feel there's presence everywhere

It's in the air

When you send me an angel

Oh, it's the beat that moves my heart

Oh, it's the essence from the start

Oh, it's the strength that You impart

Right when I need You, to send me an angel

(Chorus)
