

Heather Nova, Blind

I've been searching for the answers
I've been diving in the sea
I've been haunted by the shadows
Of what we could have been

And its not that I'm broken
And it isn't that I bleed
But when you pulled the stars from the heavens
It got so hard to see

And where would I put my hands now?

Its over now
We had our time
Its over now
We had our time
But you leave me
Blind
Will you leave me
Blind

Dove for the treasures
We went deep down for the pearls
And we could have cracked it open
Yeah, it could have been so good

And where would I put my hands now?

Its over now
We had our time
Its over now
We had our time

I feel this pain
I know I'm alive
If love is wrong
Then I'm doing time
I feel myself
Small like a child
My love has gone
How will I survive
It's everywhere
It's in the trees
All those stars and I can't see
I'm blind
I'm blind
I'm blind

And how will you think of us
A crease along your hand
Lying at these temple doors
Beautiful and sad

And where would I put my hands now?

Its over now
We had our time
Its over now
We had our time
But you leave me
Blind
Will you leave me
Blind

Its in the trees
All those stars and I can't see
Oh, you leave me, you leave
You leave me
Blind
Blind
Ooh, you leave me, you leave me
Its in the trees
You leave me, you leave me
Blind
