

# Heather Nova, Just Been Born

My heart opened like an oyster shell  
I drank salt water from you lips  
And just below the equator  
I swallowed the pearl

And I feel, and I feel, and I feel  
Like I've just been born

And the sea rolled in and rose around us  
Your face above me, darkening the stars  
And as the waves were breaking out along the reef  
I dived for your heart

And I feel, and I feel, and I feel  
Like I've just been born
