

# Heaven & Hell, Atom and Evil

Blue skies - once upon a dream  
All highs - never in-between  
Then into the garden came the slider  
I'm here for you  
Said the spider to the fly  
And when I'm through  
You can open up your eyes to see  
Your world's on fire  
And the liar won't let go  
Atom and evil  
One more promise  
We can tame the sun  
And then we'll shine forever  
Someday you'll cry  
For everyone  
Who burned when  
You were clever  
Expand your mind  
We've got a place for you  
Just make believe  
That one and one are always two  
When into the parlour  
Comes the slider  
Say no  
Atom and evil  
Falling's easy  
Rising will never be  
So we must rise together  
Here are the changes  
Power for harmony  
But then there's no forever  
Atom and evil  
Maybe if we cry together  
Maybe if we cry as one  
The tears that fall can kill the fire  
And keep everyone from  
Atom and evil  
Atom and evil  
Atom and evil  
Atom and evil
