

# Heavy Heavy Low Low, Do You Like Guns? Want

in your room  
i'm in your head now  
can you feel it?  
can you feel this smelling your hair?  
it's okay that you're the answer that i can't seem to formulate  
are you claustrophobic?  
blood is the new fashion  
when your face shatters like porcelain bullets  
wounds gape like open sewers  
it's okay  
this is what they're doing in europe  
strangling flowers into ocean blue  
you're the rock and i'm the roll  
so tilt your gaping neck and let the good times flow
