(lyric: kverd)

Ve sprech mokin a edavch blat,

Teskliv psen vody co se dere,

Ledov kapky tu padaj z nebe,

Zem slz - zernal due ve smutnm objet.
Zem slz - utichlo srdce pod thou alu.
Zem slz - v peejch ernch, posledn vzept.
Zem slz - pod vodn hladinou, strnulch sval.

Bezelstn oi hlubin miz,

Oi tak vzdlen, pohled tak ryz.
Nezaznl vkik a nezazn sten.

Pli ji tily okovy it

(English)

In clutches of swamps and grey muds,
in reflections of lakes so icy pure,
bare trunks are standing in mourning lines,
grey faces of the dead and living ones.
Wistful song of water sounds,
through heart of mountains spreading into distance.
Icy drops are falling from heaven,
difficult to look at tears taht are eternally running.

Land of tears - blackened soul in a mournful embrace.
Land of tears - the heart died because of the weight of mourning.
Land of tears - in black rapids, the last surge.
Land of tears - under water surface, surge of stiff muscles.

Innocent eyes disappear in depth,
the sun is fading, day fall asleep.
Eyes so far away, glance so pure.
Scream did not sound and not will moan.
The end is just beginning, endless circle of existence,
soul is traveling in cosmic spheres.
The fetters of life have vexed too much,
pointless are tears black like tar.
