

# Heideroosjes, We're All Fucked Up

If I look around in society today  
I just can't find the words  
I don't know what to say  
Hatred has replaced  
compassion and respect  
We seem to accept  
things we should reject

Sometimes I really think  
no one gives a damn  
We teach a lot of rules  
which we never exam  
So maybe I just should  
act like one of those  
And punch a harmless granny  
real hard op her nose

(Chorus)  
Let's sing a song together  
'cause we are all fucked up  
In a society of violence  
it's better to be locked up

Give me a gun  
I blow your head away  
I just wanna kill  
A rich kid today  
Lend me your knife  
And than I'll stab you in the back  
I just like some blood  
it's cool if you can't hit me back

Give me you're car  
I'll drive it off a bridge  
I can't return your keys  
They're stolen by a midge  
Spare me some coins  
So I can cop some dope  
I will feed it to your sister  
and hang her on a rope

(Chorus)

Oh my god what's going on  
Did we lose it all?  
If we stay intolerant  
Down iswhere we fall  
Why not put a smile on  
And share a pint of beer  
Everyone is welcometo have fun  
And give a cheer

(Chorus)
