

Helium, Medusa

Black angel, you're my centerfold
Though you're two years old, your love is so bold
My heart is so cold
My heart is so cold

Come and get me, we'll fly
On your wings through the thunderstorm sky
Kiss me, oh my
Little kiss of death and things that die

The wings of a dragonfly
The kiss of a butterfly
Sing alleluia on high
Sing alleluia on high

Come and get me we'll fly
On your wings through the thunderstorm sky
Kiss me, ah
Little kiss of death and things that die

The kiss of a rattlesnake
The body of a black lake
Sing a lullaby to wake me
A lullaby to wake me

Come and get me we'll fly
On your wings through the thunderstorm sky
Kiss me, oh my
Little kiss of death and things that die
