

Hell Is For Heroes, Five Kids Go (Original Demo Version)

I think I've been here once before, lets go, head for the shore
And you mean it's time to jump, top from, top of the world
If it's easier to burn, tell me, up on the stage

Empty shadows, calling, calling
Round my voice in breathing, breathing

Sometimes I bleed in time for more, lets go (go) head for the shore
I don't mean it's time to jump, top from (from) top of the world
And it's easier to burn, tell me (tell me) up on the stage

We'll not forget this

Empty shadows, calling, calling
Round my voice in breathing, breathing
Watch awake and fight it, fight it
Break some bones and shout with fear

Catch me right and turn me out
I've been falling out of me
Want no wine except for rounding cold

Watching, waiting
