

Halloween, Sun 4 The World

Forty million years ago
There was a boy called Leif
His skin was grey, his eyes were red
The tentacles counted five

Grown up in a normal house
His parents beloved son
There never was the slightest sign
He'd be the chosen one

Leif (No!)
Help us (No!)
Shelter us

He turns into the Sun for the world
Sun for the world
What would I say (what would I say)
Would it be me, my friend

Down on earth we see a star
Dying in it's light
Then suddenly it all explodes
A new sun shines with Leif

Leif (No!)
Help us (No!)
Shelter us

He turns into the Sun for the world
Sun for the world
What would I say (what would I say)
Would it be me

Sun for the world
Sun for the world
What would you do (what would you do)
Would it be you, my friend

Leif
Help us
Shelter us

He turns into the Sun for the world
Sun for the world
What would I say (what would I say)
Would it be me

Sun for the world
Sun for the world
What would you do (what would you do)
Would it be you, my friend
