

Halloween, The Time of the oath

In a circle of fire
On a cold winter night
I spoke out my desire
Made a promise I couldn't hide, no
In a dream
He came along and told me
"Your time has come
Your mind belongs to me"
It's the time of the oath, the time of the oath, oh
My sweetest memories
Die in the cold
It's the time of the oath
See me covered with sadness
And I'll soon wish to die
When the overcoming madness
Is eating up my mind, oh
Here and now
I look back at a good time
No more lie, I slowly say goodbye
It's the time of the oath, the time of the oath, oh
My sweetest memories
Die in the cold
It's the time of the oath
Yeah (x2)
Oh
(Dies irae, dies illa
Solvat saecium in favilla
Quantus tremor est futurus
Quando j u d e x est venturus)
In a dream
He came along and told me
"Your time has come
Just slowly say goodbye"
It's the time of the oath, the time of the oath, oh
My sweetest memories
Die in the cold
It's the time of the oath, the time of the oath, yeah
My sweetest memories
Die in the cold
It's the time of the oath
