

Halloween, Twilight Of The Gods

[Melody Solo Kai]

[Insania 20 14]

We've thrown away our former gods
Controlling our day
We have created better ones
So we control the way

We are the ones with the power
To hold down the enemy
Our gods are perfection
And they are protecting our lives
We still need some more of them
To be safe from the other side
As long as we're stronger
Nothing will happen to us

Fireflash in the night
just an evil dream
Holy war in the skynever

[Insania 20 16]

Error in store 103
We watch the sun at night
The pretty gods we're built ourselves
Now terminate our lives
Silicone brain powered voices
Are crying "attack"; tonight
Our gods are now fighting
In anger, burning our world
Doomsday has come
And there is no place to hide away
The future is no turning back
Fireflash in the night
Now reality
Holy war in the sky.....

[chorus]

Twilight of the gods
Insania's dead and gone
Another world was born
But the twilight soon will come

[Solo]

[Mike/Harmony both/Kai]

Fireflash in the night
Now reality
Holy war in the sky.....

[Chorus]
