

# Halloween, Twilight Of The Gods

[Melody Solo Kai]

[Insania 20 14]

We've thrown away our former gods  
Controlling our day  
We have created better ones  
So we control the way

We are the ones with the power  
To hold down the enemy  
Our gods are perfection  
And they are protecting our lives  
We still need some more of them  
To be safe from the other side  
As long as we're stronger  
Nothing will happen to us

Fireflash in the night  
just an evil dream  
Holy war in the sky .....never

[Insania 20 16]

Error in store 103  
We watch the sun at night  
The pretty gods we're built ourselves  
Now terminate our lives  
Silicone brain powered voices  
Are crying "attack"; tonight  
Our gods are now fighting  
In anger, burning our world  
Doomsday has come  
And there is no place to hide away  
The future is no turning back  
Fireflash in the night  
Now reality  
Holy war in the sky.....

[chorus]

Twilight of the gods  
Insania's dead and gone  
Another world was born  
But the twilight soon will come

[Solo]

[Mike/Harmony both/Kai]

Fireflash in the night  
Now reality  
Holy war in the sky.....

[Chorus]
