## Helloween, We Burn

Climb down my pile
And again to the beat of my heart
You're so exciting
Take all the soul
I will give you as much as you want
Control my feelings

Higher, much higher Unbounded fire Closer, much closer Close to the core

We burn, we burn

I contaminate you I like to pollute you with my G-g-generations Look in my eyes And we melt into on yearning mind We climb the stages

Higher, much higher Unbounded fire Closer, much closer Close to the core

We burn, we burn Insanity, insanity Never set me free
