## Helloween, Windmill

Time goes wherever you are Time is your guiding star That shines through all your life Makes you feel and move

My dreams are out in the far So are yours a part Of secret fairy tales Dripped on the wings of a mystery mill

Windmill, windmill, keep on turning Show me the way, Take me today Windmill, windmill, hearts are yearning Longing for love and a chance to be free

Don't feel alone and depressed Someone will come at last To soothe your stumbling mind To keep it away from the evil storm

Windmill, windmill, keep on turning Show me the way, Take me today Windmill, windmill, hearts are yearning Longing for love and a chance to be free
