

# Hellyeah, You Wouldn't Know

You couldn't be, you couldn't be me even if you wanted to,  
Everything I've been through.  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know  
18 wheels are rolling,  
18 wheels are crushing,  
Me down,  
Running me down  
Cars are crashing  
Cars are crashin, all around me  
Running me down,  
All my days are numbered,  
All my days are grey,  
All my skies are covered,  
All my ends are frayed,  
You couldn't be, you couldn't be me even if you wanted to,  
Everything I've been through. You wouldn't know  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know  
Lightnings crashin  
Thunders rolling all around me,  
Bringin me down  
Stars are falling,  
Fires lighting all around me,  
Burning me down  
All my days are numbered,  
All my days are grey,  
All my skies are covered,  
All my ends are frayed,  
You couldn't be, you couldn't be me even if you wanted to,  
Everything I've been through. You wouldn't know  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know  
Feels like I'm falling down,  
Inside a fever rising,  
Buried my life deep in the ground,  
Left my existence lying, so let's go  
You couldn't be, you couldn't be me even if you wanted to,  
Everything I've been through.  
Live your life, soaking up all my sunshine,  
And smile your whole life,  
I wouldn't know
